

**SR01-02MK3**

**HEADING AND ROT REPEATER**

New version with  
heading source identification

# DISPLAY YOUR SHIP'S HEADING AND RATE-OF-TURN IN ALL CONDITIONS

At Scandinavian Micro Systems we contribute to your safety at sea by developing and installing high-quality, precision navigation instruments for integration onboard your vessel ... and we've been doing it for over 40 years.

This is our 4th generation Digital Heading & ROT Repeater;  
now with **Heading Source Identification**

As the latest incarnation of the ScanRepeater™ range, this compact unit is known for its reliability, superior functionality and easy-to-read display in all conditions.

In fact, since the first LR22 & LR40 models, over 18000 have been installed worldwide.

## KEY FEATURES

- **SOLAS Compliant Heading & ROT Repeater**
- **Heading Display;** using super-bright LEDs that can be read from more than 10 meters away
- **Heading Source Identification;** shows the heading source as: GYR (gyrocompass), MAG (magnetic compass) or SAT (satellite compass)
- **Polar Mode Option;** by changing the internal DIP switches the unit will prioritize to display the Satellite Compass Heading
- **Analog Turning Indicator™ (ATI);** helps you quickly assess the ship's Rate of Turn and Turning Direction (this is our Trademark invention since 1976)
- **Numeric ROT Display;** two LED digits, inside the ATI ring shows the ship's Rate of Turn in degrees per minute
- **Remote Brilliance Control Unit;** Our SR01-06Mk2 Remote Brilliance Control is available
- **IPx6 for Bridge Wing Mounting;** the unit is "water tight and meets IEC 60945 IPx6 for mounting in exposed areas
- **Cradle or Console Mounting;** the unit is made for console mounting, but a cradle is included with each unit, as standard
